

Dear Valued Colleague and Staff,

Finally, a Half-Off Sale to make you smile!! No crowds, no lines, and no red tags. In fact, everything's *clear*. That's right, what we're offering is almost invisible, yet priceless. It's the gift of a beautiful smile without braces. What could be better?

If you don't know about the Invisalign System™, it's time you learned how the clear alternative to braces can benefit you and your staff. Invisalign® is an innovative way to straighten teeth through the use of clear plastic Aligners that fit over the teeth like bleaching trays and can be removed to eat, brush, and floss. They are the result of 3-D technology, specifically designed for every stage of your orthodontic treatment. Each set of Aligners is worn for two weeks, at which time it is replaced by a new set, which promotes new tooth movement. They are removable, convenient and virtually undetectable – no one even has to know you're wearing them!!

And the best part? **Throughout the month of May, our office is offering a half-off professional courtesy to you and your staff if you start Invisalign® treatment before month's end!!** If you've been thinking about orthodontic treatment, Invisalign® may be the answer. **We are hosting an Invisalign® complimentary screening on Wednesday, May 10<sup>th</sup> at 6:00PM in our Oglethorpe Avenue office!!** Call our office today to sign up to come to the screening and find out if Invisalign is right for you. We are grateful for your partnership and we know you'll be grateful for Invisalign. We're in the business of smiles, and what better way to celebrate than with a Half-Off Sale that will truly bring a smile to your face?

Call today!! We look forward to helping you and your staff achieve the smiles you've always wanted!

Sincerely,

Dr. Robert L. Waugh
